

How to Access YuJa

To access YuJa, click the **YuJa** link in the Course Navigation in any Canvas course. Only faculty are authorized to make this link available to you.

How to Record in YuJa

If your instructor asks you to make a video, you can do that in YuJa once you've installed it on your computer. These tutorials describe how to install and use the YuJa recording software.

How to Upload Video into YuJa

If you create a video outside of YuJa, you can upload it into your **YuJa Media Library**.

Click on the **YuJa** link and then click **Manage Media** to access your **Media Library**. This is where *all* of your YuJa media will be stored, not just the media for one course. This tutorial describes how to upload media into your YuJa Media Library.

[Uploading Media](#)

When a new video is added to your Media Library, YuJa uses voice-to-text technology to generate **captions** and a **transcript**. It will take a few minutes before they are available.

How to Submit a Video for an Assignment

Once you have a video in your YuJa Media Library, you can embed it in a Discussion post or submit it for an assignment (the assignment must allow for **Text Entry** submission).

Click on the plug-in icon (Apps) and select **YuJa Media**.

When you select **YuJa Media**, the **Media Chooser** box opens. Scroll down to find the desired video. You can also **Search**, **Filter**, or **Sort** to find the video you want.

YuJa Tech Support

Click the avatar (1) on the top-right corner to access **Support** (2).

You can access **documentation** to learn more about YuJa or you can send a **message** to ask a question.
